Making Additive
Work for You™

DAY 1 | TUESDAY, FEBRUARY 4

8:00 AM - 9:00 AM	Registration and Continental Breakfast		
9:00 AM	Opening of Conference Speakers: Joris Peels - Executive Editor, 3DPrint.com and VP Consulting, Additive Manufacturing Research Oliver Smith - Founder, Principal Consultant, Rethink Additive	2:00 PM	Panel 4: Applications Moderator: Eric MacDonald - Murchison Chair and Professor, Aerospace and Mechanical Engineering, Assoc. Dean of Research and Graduate Studies, College of Engineering, Joint Faculty Appointment, Oak Ridge National Laboratories, The University of Texas at El Paso Speakers: Michael Fuller - Founder & CEO, Conflux Technology Adam Travis - AM Program Leader, Westinghouse Electric Company Klaus Stadlmann - Managing Director, Genera
9:10 AM	Main Conference Keynote Speaker: Yoav Zeif - Chief Executive Officer, Stratasys		
9:40 AM	AM Mid-Decade: Market Data Speaker: Scott Dunham - Executive Vice President of Research, Additive Manufacturing Research	2:30 PM - 3:05 PM	Afternoon Break and Networking
9:50 AM - 11:35 AM	Session 1: Mass Manufacturing: AM on the Toolbelt	3:05 PM - 4:20 PM	Session 3: Reshoring
9:50 AM	Panel 1: The Polymer Toolbelt Moderator: Ben Arnold - Founder, Additive Advocates Speakers: Phil DeSimone - CEO, Carbon Michael Cao - Chief Extrusion Officer, IC3D Printers Richard Garrity - Chief Business Unit Officer, Stratasys Francois Minec - Global Head of HP 3D Polymers, HP Inc.	3:05 PM	Keynote: All Ahead Flank!: Driving Advanced Manufacturing in Maritime Applications Speaker: Matthew Sermon - Exec. Director for Program Executive Office for Strategic Submarines, US Navy
10:20 AM	Talk 1: Enabling the Manufacturing of Parts that the World Needs Through Material Processing Technologies & Chemistry Speaker: Roger Antúnez - Founder & CEO, Supernova	3:20 PM	Panel 5: Rebuilding the Industrial Base: Government and National Clusters Moderator: John Wilczynski - Exec. Dir., America Makes Speakers: David Hampel - Head of Unit Manufacturing Industries, Berlin Partner Stewart Lane - Head of Business Development, EMEA, Renishaw Naiara Zubizarreta - Director, Spanish Association of AM (ADDIMAT) Chaw Sing Ho - Co-founder and CEO, National Additive Manufacturing Innovation Cluster (NAMIC)
10:30 AM	Panel 2: The Metal Toolbelt Moderator: Kartik Rao - Strategic Marketing Director, Additive Industries Speakers: Nils Niemeyer - General Manager, DMG MORI USA, Inc. Ric Fulop - Co-founder & CEO, Desktop Metal Ted Sorom - CEO and Co-Founder, Mantle Alexandre Tartas - Global Head of Sales & GTM Metals 3D Printing, HP	3:50 PM	Panel 6: Bridging the Public-Private Gap Moderator: Andy Davis - Director of Government Solutions, The Barnes Global Advisors Speakers: Neal Orringer - President, ASTRO America Foster Ferguson - VP, Industrial Business, Stratasys Chris Lehman - Principal, Metis Endeavor Adele Ratcliff - Director, Department of Defense Office of Innovation Capability and Modernization
11:00 AM	Talk 2: Is the AM Industry Ready for Closed-Loop Control? Speakers: Niall O'Dowd - Chief Executive Officer, Phase3D Ben Ferrar - Chairman of the Board and Chief Operating Officer, Phase3D	4:20 PM - 5:40 PM	Session 4: Venture Capital
11:10 AM	Talk 3: Dyndrite Speaker: Harshil Goel - Chief Executive Officer & Founder, Dyndrite	4:20 PM	Keynote: The drAMa Industry: (What) Have We Learned? Speaker: Arno Held - Managing Partner, AM Ventures
11:25 AM	Talk 4: XACT Metal Speaker: Juan Mario Gomez - CEO, XACT Metal	4:40 PM	Panel 7: A Founder's Journey: Fundraising for Scaling Applied 3DP Moderator: Tali Rosman - Startup Advisor, RHH Advisory Speakers: Jeff Herman - CEO and Co-Founder, Fabric8Labs James DeMuth - Co-Founder & CEO, Seurat Alfred Griffin - Co-Founder and CEO, LightForce
11:35 AM - 1:00 PM	Lunch Break and Networking	5:10 PM	Panel 8: Shark Bites: VCs Discuss Why They Do or Don't Invest in 3DP/AM Moderator: Tyler Benster - Gen.Partner, Asimov Ventures Speakers: Christopher Wan - Vice President, San Francisco, Bessemer Venture Partners Alexander Schmoeckel - Associate, AM Ventures Greg Reichow - Partner, Eclipse Carlos Furlotti - Principal, Exposition Ventures
1:00 PM - 2:30 PM	Session 2: AM Commercialization	5:40 PM	Wrap-up Discussion and Highlights for Wednesday
1:00 PM	Special Presentation: Leveraging Additive Manufacturing + Computational Design to Disrupt Golf Speakers: Bradley Rothenberg - CEO and Founder, nTop Ryan Roach - Director of Innovation, Cobra Puma Golf	5:45 PM - 7:30 PM	Networking Reception sponsored by AM Ventures: Bavarian Beer and Pretzels
1:30 PM	Panel 3: Sustainability: Powering the Bottom Line Moderator: Matthias Schmidt-Lehr - Executive Partner, AMPower Speakers: Rob Higby - Chief Executive Officer, Continuum Powders Frank Roberts - President, 6K Additive Kate Black - CEO & Founder, Atomik AM		

DAY 2 | WEDNESDAY, FEBRUARY 5

8:00 AM - 9:00 AM	Registration and Continental Breakfast	1:55 PM	Talk 1: Scaling Innovation: Patient-Centric 3D-Printed Solutions Redefining Cancer Care Speaker: Rajan Patel - CEO, Kallisis
9:00 AM	Recap of Yesterday - Plan for Today		
9:05 AM	Keynote: Accelerating Adoption of Additive Manufacturing Applications Speaker: Alex Monino - HP, SVP & GM, Personalization and 3D Printing	2:05 PM	Panel 4: Policy for AM Healthcare Moderator: Mark Burnham - Director of Policy, Additive Manufacturing Coalition Speakers: Ankush Venkatesh - Intrapreneur, Additive Manufacturing, Glidewell Lexi Gormley - Clinical Applications Specialist, Additive Manufacturing, Ricoh USA, Inc. Louis-Philippe Broze - Co-founder & CEO, Spentys
9:30 AM	Presentation: Strategies for Success Speaker: John Barnes - Founder, The Barnes Global Advisors		
9:40 AM - 11:15 AM	Session 1: Transportation	2:35 PM - 3:20 PM	Afternoon Break and Networking
9:40 AM	Keynote: The Beauty of an Empty Warehouse: Saving Millions with AM in Rail Speaker: Stefanie Brickwede - Managing Director, Mobility goes Additive	3:20 PM - 4:40 PM	Session 3: Materials
	Panel 1: AM for Mobility Moderator: Debbie Holton - Principal, Converge Consulting Group Speakers: Christian Ochs - Head of Additive Manufacturing, Siemens Mobility GmbH Matthew Sermon - Executive Director for Program Executive Office for Strategic Submarines, US Navy Andrew Cunningham - Senior Additive Manufacturing Application Engineer, Nikon SLM Solutions NA, Inc.	3:20 PM	Presentation of AM Research Materials Forecasts Speaker: Scott Dunham - Executive Vice President of Research, Additive Manufacturing Research
10:00 AM	Talk 1: Integrate to Scale - How Additive Manufacturing Works for the BMW Group Speaker: Stefanus Bosch - Head of Additive Manufacturing Predevelopment and Planning, BMW Group	3:25 PM	Panel 5: Metal AM Materials Moderator: John Barnes - Founder, The Barnes Global Advisors, CEO, Metal Powder Works Speakers: Matthew Draper - Technical Director, Metallurgy and Manufacturing, US Navy Colin Hantz - CEO, ArcelorMittal Powders Mihaela Vlasea - Associate Professor, Mechanical and Mechatronics, and Co-Director, Multi-Scale AM Laboratory, University of Waterloo
10:30 AM	Panel 2: The Industrialization of Additive for Aerospace Moderator: Mark Benedict - Senior Scientist, Air Force Research Laboratory Speakers: Brad Kreger - CEO, Velo3D Marc Fette - CEO, CTC, an AIRBUS Company Paul Gradl - Principal Engineer, Subject Matter Expert, NASA Marshall Space Flight Center (MSFC) David Alexander - Senior Director of Standards, SAE International	3:55 PM	Talk 3: AI in AM – Undervalued or Overhyped? Speaker: Greg Hayes - Senior Vice President, Applied Technology, EOS Group, EOS North America
10:45 AM	Lunch Break and Networking	4:10 PM	Panel 6: Polymer AM Materials Moderator: Ryan Hayford - Founder, Hayford Consulting Speakers: Martin Back - CEO, Forward AM Lars Brubaker - CEO, MatterHackers Neil Hopkinson - Vice President, Additive Manufacturing Technology and GM, SAF Business, Stratasys
11:15 AM - 1:05 PM	Session 2: Healthcare	4:40 PM - 5:50 PM	Session 4: Printing Money
1:05 PM	Keynote: Growing Role of Assistive Technology in AM Strategies Speaker: Satish Mishra - Head of Global Programmes, ATscale, The Global Partnership for Assistive Technology, UNOPS	4:40 PM	The Private Equity Perspective Moderator: Mingu Kang - CEO, ARIS Technology Speakers: Eugene Kim - Vice President, AE Industrial Mark Morrissette - Managing Director, North Atlantic Capital, a Stifel company
1:20 PM	Panel 3: Enablers to Scale AM in Healthcare Moderator: Naomi Nathan - Head of Medical, MGA Speakers: Amy Alexander - Unit Head, Mechanical Development & Applied Computational Engineering, Mayo Clinic Brigitte de Vet-Veithen - CEO, Materialise Jenny Chen - Founder and CEO, 3DHEALS	5:10 PM	Panel 7: M&A and Capital Markets Moderator: Alex Kingsbury - Market Development Manager, Additive Manufacturing, nLIGHT Speakers: Danny Piper - Principal, NewCap Partners, Inc. Bryan Dow - Managing Director, Cantor Fitzgerald Stephen Butkow - Managing Director, Cantor Fitzgerald Arno Held - Managing Partner, AM Ventures
		5:50 PM	Wrap-up Discussion and Highlights for Thursday
		7:00 PM	Evening Mixer: Mamazul - 1155 Broadway

HP Industrial 3D Printers and Solutions

Manufacturing your future from adoption to scale

Data courtesy of Weerg, srl

- **Plastic 3D Printers:** Produce high-quality prototypes and final polymer 3D parts with best-in-class isotropy, and gain optimized production and design freedom with uniquely predictable print times for any type of 3D part.
- **Metal 3D Printer:** Accelerate innovative designs and products, and efficiently produce high-quality 3D metal parts at scale.
- **3D Printing Materials:** Search the directory to find partners producing 3D printed polymer parts using HP MJF technology.
- **HP 3D Services:** HP supports your business at every stage, from the initial adoption of 3D printing technology to scaling up your operations. Whether you're looking to prototype new designs or produce high-quality end-use parts, HP's industrial 3D printers offer the versatility and performance needed to transform your business.

DAY 3 | THURSDAY, FEBRUARY 6

8:00 AM - 9:00 AM	Registration and Continental Breakfast		
9:00 AM	Recap of Yesterday - Plan for Today		
9:05 AM	The Power of Investment: Accelerating AM with Private Equity Moderator: TBA Speakers: Joe Calmese - President & Chief Executive Officer, ADDMAN Deven Suthar - VP of Strategy & Corporate Development, ADDMAN Danny Davis - Partner, Operations, American Industrial Partners	11:00 AM	Panel 3: AM and Industrial-Scale Automation Moderator: Brian Albright - Editorial Director, Digital Engineering / DE247 Speakers: Karsten Heuser - VP Additive Manufacturing, Siemens Digital Industries, Siemens AG Alexander Oster - Head of Additive, Autodesk Andre Wegner - Founder and CEO, Authentise
9:30 AM - 10:40 AM	Session 1: Services	11:30 AM	Talk 2: Robots vs Humans: How Far Can Automation Take Us in Manufacturing? Speaker: Daghan Cam - Co-Founder & CEO, Ai Build
9:30 AM	Talk 1: Digital Inventory Services Speakers: AJ Strandquist - CEO, Würth Additive Group Dario Komsic - Head of Marketing, IMS Verbindungstechnik Dimitrios Mitskos - Head of Systems & Solutions, Wurth Canada	11:45AM	Talk 3: Automation & Robotic 3D Printing Speakers: Francesco De Stefano - CEO and Co-founder, Caracol Adam Hecht - Partner, Director of AM, DIVE
9:45 AM	Panel 1: Specialist Services Moderator: Michael Molitch-Hou - Editor in Chief, 3DPrint.com Speakers: Erin Mastroni - President, I3D MFG Jason Ball - VP & General Manager, Burloak Technologies Jason Murphy - President and CEO, Next Chapter Manufacturing + NXCMED	12:00 PM - 1:20 PM	Lunch Break and Networking
10:15 AM	Panel 2: Agile Manufacturing: Decentralized and Intelligent Moderator: Matt Kremenetsky - Macro Analyst, 3DPrint.com Speakers: Greg Paulsen - Director of Applications Engineering and Marketing, Xometry Mikkel Kring - Chief Product Officer and Managing Director, Craftcloud, AI3DP Marleen Vogelaar - CEO, Shapeways	1:20 PM - 1:50 PM	Session 3: Market Forecasts
10:45 AM - 12:00 PM	Session 2: Automation	1:20 PM	Panel 4: Market Forecasts Moderator: Dayton Horvath - Director, Emerging Technology and Investments, AMT Speakers: Scott Dunham - Executive Vice President of Research, Additive Manufacturing Research Matthias Schmidt-Lehr - Executive Partner, AMPOWER Terry Wohlers - Head of Advisory Services and Market Intelligence, Wohlers Associates, powered by ASTM International
10:45 AM	Keynote: From Dreams to Deliverables – When Innovation Meets Reality Speaker: Brigitte de Vet-Veithen - CEO, Materialise	1:50 PM - 2:40 PM	Session 4: CEO Roundtable
		1:50 PM	Panel 5: CEO Roundtable Moderator: Troy Jensen - Managing Director, Cantor Fitzgerald Speakers: Yoav Zeif - Chief Executive Officer, Stratasys Brigitte de Vet-Veithen - CEO, Materialise Jeff Graves - President & CEO, 3D Systems Max Lobovsky - Chief Executive Officer, Co-Founder, Formlabs Phil DeSimone - CEO, Carbon
		2:40 PM	AMS 2025 Review Speakers: Joris Peels - Executive Editor, 3DPrint.com and VP Consulting, Additive Manufacturing Research Oliver Smith - Founder, Principal Consultant, Rethink Additive
		2:45 PM	Conference Ends
		3:00 PM	Happy Hour Farewell: Peter McManus Cafe - 152 7th Ave

**Networking Hall :
Open from 8 a.m. to close each day**

The Networking Hall is open throughout the conference. It is designed for comfort, connecting and communication. There are designated spaces where you can meet representatives of companies who chose to be highly visible in the hall. Breakfast, lunch and afternoon breaks will take place in the networking hall as well as the Bavarian Beer and Pretzel Reception sponsored by AM Ventures on Tuesday evening (5:45 p.m. to 7:30 p.m.).

FOR THOSE OBSESSED WITH PERFECTION.

PLATINUM SPONSORS

AiBuild

ai-build.com

David Larson, Regional Sales Director - Americas
E: americas@ai-build.com
North and South America

AiBuild is a software company providing a powerful foundation to scale from prototyping to production by delivering 3D printing and CNC machining together in one secure platform. Committed to advancing manufacturing efficiency, AiBuild is propelling the shift toward next-generation factories with centralised control of all machine fleets. The unified platform seamlessly integrates hardware, software, and materials, transforming each component into a cohesive, intelligent system to automate and optimise the manufacturing process.

**AMT-The Association For
Manufacturing Technology**

amtonline.org/home

Chris Downs, Director, Audience Development
E: cmdowns@amtonline.org
T: 703-827-5259
McLean, Virginia, USA

AMT focuses on supporting manufacturers with vital information on technological developments, developing winning business models, advocating for a next-generation Smartforce, and building dynamic ecosystems that nurture new concepts and solutions. AMT maximizes the development of the additive industry as it adapts to new paradigms and business models and contributes to the overall growth of the manufacturing technology industry.

**Berlin Partner for Business &
Technology (feat. AMBER)**

www.berlin-partner.de

David Hampel, Head of Manufacturing Industries
E: david.hampel@berlin-partner.de
Berlin/Germany

Berlin Partner is the business development agency of the German capital. Additive manufacturing is one of the technologies focused on in Berlin as a center of innovation. As a cluster, AMBER represents the AM ecosystem of the capital region and is a proud partner of this year's AMS in New York.

Dyndrite

www.Dyndrite.com

Shawn Hopwood, Chief Marketing Officer
E: shopwood@dyndrite.com
United States

Dyndrite provides high-performance software tools that give hardware and software companies the power, freedom and control necessary to deliver next generation additive manufacturing solutions. Dyndrite LPBF Pro is a powerful new application empowering metal 3D printing professionals with previously unattainable speed, part printing capabilities, and cost savings. Unlike legacy build preparation tools, Dyndrite LPBF Pro provides production-oriented tools, specifically those focused on materials and process development. For more information visit: www.dyndrite.com

EOS

Eos-na.com

Katie Henwood, Events Marketing Specialist

https://www.rapid3devent.com/

Clayton McIntyre, Program Manager
E: cmcintyre@sme.org
USA

For over 30 years, RAPID + TCT has defined additive manufacturing, empowering faster, cost-efficient product development. Join North America's largest 3D printing event, April 8-10 in Detroit, to explore groundbreaking technologies, hands-on exhibits, and expert-led sessions. Discover real-world solutions from 100+ industry leaders and network with thousands of peers. Don't miss your chance—claim your complimentary Expo Pass with promo code AMS when registering. Experience the future of manufacturing at RAPID + TCT!

Würth Additive Group (WAG)

wurthadditive.com

AJ Strandquist, Chief Executive Officer
E: aj.strandquist@wurthadditive.com
United States (HQ) Australia, Germany, Mexico

At AMS 2025, Würth Additive Group is showcasing the continued evolution and development of Digital Inventory Services (DIS), in partnership with our organization's AM leaders, Dimitrios Mitskos, Würth Canada, and Dario Komsic, IMS Verbindungstechnik GmbH & Co. KG

Over the past year, AM executives and industry leaders have leveraged DIS in different ways, to strategically meet organizational goals, including streamlining global supply chains, enabling point-of-need production, tracking sustainability KPIs, and driving measurable operational efficiencies.

Let's connect at AMS to explore how DIS can align with your leadership's vision and equip your team to achieve critical AM objectives. Together, we'll simplify supply chain strategies, achieve measurable KPIs, and position your organization for sustainable growth.

Cantor has been a pioneer in the financial services industry since our inception.

We continue to set ourselves apart by providing clients with access to our full suite of specialized financial products and services to help them shape the future of their industries.

As recruitment leaders in Additive & Advanced Manufacturing, Software & IoT, and Robotics & Industrial Automation, we help shape technology-driven industries like Aerospace, Space, Defense, Automotive, Industrial, MedTech and BioTech. We believe in a future where technology not only enhances lives but builds a better world.

CARACOL

CARACOL Inc
caracol-am.com

Violetta Nespolo, Chief Marketing & Strategy Officer
E: violetta.nespolo@caracol-am.com
United States; Italy

Caracol was born from the idea of pushing the limits of AM, beyond what is possible. We've done this with HERON AM: Caracol's Large-Format Additive Manufacturing platform – a modular, polymer and composite pellet extrusion robotic 3D printer, for large-scale, industrial applications for sectors such as aerospace, marine, automotive, design and construction. Built integrating hardware and software, HERON AM provides flexibility, efficiency, and sustainability; ideal to produce large-scale components on-demand. Caracol perfected HERON AM with end-user needs in mind, after years of research and experience manufacturing parts for clients across sectors. Our goal is to ensure production quality and continuity for the most advanced applications, providing the best hardware-software and with a strong service team to support from design to maintenance to support a long your LFAM journey.

Canada

Revolutionizing Industrial Additive Manufacturing: At Dyze Design, we drive the future of high-performance 3D printing solutions for manufacturers worldwide. Our advanced extrusion systems are engineered for precision, scalability, and reliability—empowering businesses to embrace the full potential of additive manufacturing at industrial scales. Specializing in large-format and high-flow rate printing technologies, we collaborate with industry leaders to create innovative solutions that reduce production time, increase material efficiency, and enable seamless automation. Our extrusion systems are designed to integrate with your manufacturing process, ensuring high throughput and flexibility without compromising on quality. As a trusted partner in the field of advanced manufacturing, Dyze Design delivers robust and scalable solutions for industries such as medical (O&P), architecture & construction, design & furniture, automotive, rail, tooling and protective equipment. Our focus is on optimizing production workflows, providing customizable options to meet industry's specific needs, and pushing the boundaries of what is possible with 3D printing.

Kallisio

kallisio.com
Rajan Patel, CEO & Co-Founder
E: rajan@kallisio.com
T: 650 464 5335
USA

Kallisio is redefining cancer care by changing the approach to toxicity management. The team develops technology tailored to meet the unique anatomical and treatment requirements of each patient. These custom healthcare solutions transform therapy by ensuring delivery precision and the effective protection of healthy tissues. As a result, patients experience a significant reduction in side effects, better treatment outcomes, and an improved quality of life during their cancer care journey.

At Supernova, we are redefining manufacturing with a focus on ground-breaking chemistry and industry-leading material processing innovations. Known for our EPDM and PA6-GF20 equivalent photopolymers, we are pushing the boundaries of what is achievable in Additive Manufacturing through the mission to make impossible plastic molding runs possible. Headquartered in Austin, Texas, with an additional site in Barcelona, Spain, we are also pioneering the field of AM in military-grade energetic materials through our Supernova Defense & Space business unit. Field of AM in military-grade energetic materials t

XACT METAL

Xact Metal
www.xactmetal.com
Juan Mario Gomez, Chief Executive Officer
E: juanmario@xactmetal.com
USA

Xact Metal is a powder-bed fusion metal 3D printer manufacturer on a mission to reduce the price of equipment and promote adoption amongst small and medium sized companies. Xact Metal 3D metal printers are designed to be accessible in terms of price, usability, and size. The XM200G family of printers are configurable, providing options for single or dual lasers, varying wattage power up to 400W, and the option of a 50- or 100-micron beam diameter.

BUILD BEYOND POSSIBLE

With **Caracol's** robotic LFAM technologies

Heron AM for polymer and composites 3D printing, **Vipra AM** tailored to metal applications in demanding industries.

CARACOL

Advanced Manufacturing Software

Additive manufacturing and tailor-made CNC machining strategies are engineered into one secure platform. Aibuild software seamlessly integrates hardware, software, and materials, transforming each component into a cohesive system to automate and optimise the manufacturing process.

Cloud-connected **for scale**, deployable on desktop **for security**, delivering immediate value today and ready to meet the future needs of manufacturing.

Award winning, ISO27001 certified, used in production applications globally.

Backed by Nikon & Boeing.

SILVER SPONSORS

3DMaterials GD

Kahae Nielsen
Director for Business Strategy & Marketing
E: khhan@3DmaterialsGD.com

3DMaterials GD supplies high-performance 3D printer resins under the 'SuperFast' brand to over 20 countries. This extensive experience has given us a deep understanding of the limitations in current 3D printing technologies. To address these challenges, we have developed groundbreaking new 3D printing technology called PLP. This innovative technology can 3D-print parts with properties equivalent to injection-molded PP, ABS, PEEK, and ULTEM meeting the rigorous standards of aerospace, defense, and automobile industry.

Additive Industries

additiveindustries.com
Kartik Rao, Strategic Marketing Director
E: k.rao@additiveindustries.com
The Netherlands

Founded in 2012, Additive Industries is the world's first industrial metal additive manufacturing (AM) systems developer. Our mission is to design and construct metal AM systems that can produce parts to outclass castings and machining for specific applications in terms of cost, quality, lead time, complexity, and functionality.

Advanced Printed Electronic Solutions LLC

Advpes.com
Rich Neill, CEO
E: rich@advpes.com
USA

Advanced Printed Electronic Solutions specializes in multi-material, multi-tool, 5-axis 3D Printed Electronics (3DPE) and industrial grade Additive Manufacturing. The Company offers product solutions for 3DPE and additive manufacturing, as well as engineering services in the application of complex electronic systems to additive manufactured assemblies. Engineering services include hardware/software development in conjunction with process engineering and manufacturing across two 3DPE workflows; functionalizing additive manufactured 3D structures or conformal surfaces; and fully additive 3D printed electronics where electronic circuitry may exist anywhere in a 3D printable geometry.

T: 979-255-6051

USA

BlueForge Alliance (BFA) is a non-profit defense industrial base integrator that supports the U.S. Navy's industrial base initiatives and efforts to strengthen and sustain the maritime manufacturing sector. The BFA mission is to enable the submarine manufacturing industry to build and maintain America's next generation of undersea platforms by increasing capability, capacity, collaboration, and resilience.

Don't 3D Print in Brittle Resin or Problematic Metal Powders

3DMaterialsGD produce generative-designed parts with properties equivalent to injection-molded PP, PC, ABS, PEEK, and ULTEM meeting the rigorous standards of automobile, aerospace, and defense industries, which has never been achieved by conventional 3D printing methods.

Using metal casting of generative-designed 3D printed wax, optimized parts with no porosity, void, or heat-deformation can be cast in actual metal alloys including titanium, steel, and aluminum alloys as well as in pure copper.
